INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF THE SULLIVAN COUNTY COMMUNITY
HOSPITAL, SULLIVAN COUNTY, INDIANA

We have audited the accompanying basic financial statements of the Sullivan County Community Hospital (Hospital), and its aggregate discretely presented component units as of and for the year ended December 31, 2007, as listed in the Table of Contents. These financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Hospital and its aggregate discretely presented component units as of December 31, 2007, and the respective changes in financial position and cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States.

The Hospital has not presented Management's Discussion and Analysis, that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

SULLIVAN COUNTY COMMUNITY HOSPITAL
NOTES TO FINANCIAL STATEMENTS

I. Summary of Significant Accounting Policies

A. Reporting Entity

Sullivan County Community Hospital (Hospital) is a County-owned facility and operates under the Indiana County Hospital Law, Indiana Code 16-22. The Hospital provides short-term inpatient and outpatient health care.

The Board of County Commissioners of Sullivan County appoints the Governing Board of the Hospital and a financial benefit/burden relationship exists between the County and the Hospital. For these reasons, the Hospital is considered a component unit of Sullivan County.

The accompanying financial statements present the activities of the Hospital (primary government) and its significant component units. The component unit discussed below is included in the Hospital's reporting entity because of the significance of its operational or financial relationships with the Hospital. Discretely presented component units are involved in activities of an operational nature independent from the government; their transactions are reported in a separate column in the basic financial statements to emphasize that it is legally separate from the Hospital.

Discretely Presented Component Unit

The SCCH Fitness Center, Inc., is a significant discretely presented component unit of the Hospital. A voting majority of the Center's Board is composed of members of the primary government's administration enabling the primary government to impose its will on the Center. A financial benefit/burden relationship exists between the Hospital and the Center.

Separate audit reports are not prepared for the individual component unit.

B. Enterprise Fund Accounting

The Hospital uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus. Based on Governmental Accounting Standards Board (GASB) Statement 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, as amended, the Hospital has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB), including those issued after November 30, 1989, that do not conflict with or contradict GASB pronouncements.

C. Assets, Liabilities and Net Assets or Equity

1. Deposits and Investments

Cash and cash equivalents include demand deposits and investments in highly liquid debt instruments with an original maturity date of three months or less.

Short-term investments are investments with remaining maturities of up to 90 days.

Statutes authorize the Hospital to invest in interest-bearing deposit accounts, passbook savings accounts, certificates of deposit, money market deposit accounts, mutual funds, pooled fund investments, securities backed by the full faith and credit of the United States Treasury and repurchase agreements. The statutes require that repurchase agreements be fully collateralized by U.S. Government or U.S. Government Agency obligations.

SULLIVAN COUNTY COMMUNITY HOSPITAL
NOTES TO FINANCIAL STATEMENTS
(Continued)

Nonparticipating certificates of deposit, demand deposits, and similar nonparticipating negotiable instruments that are not reported as cash and cash equivalents are reported as investments at cost.

Debt securities are reported at fair value. Debt securities are defined as securities backed by the full faith and credit of the United States Treasury or fully insured or guaranteed by the United States or any United States government agency.

Open-end mutual funds are reported at fair value.

Money market investments that mature within one year or less at the date of their acquisition are reported at amortized cost. Other money market investments are reported at fair value.

Other investments are generally reported at fair value.

Investment income, including changes in the fair value of investments, is reported as nonoperating revenues in the statement of revenues, expenses, and changes in net assets.

2. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, and equipment, are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed or donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods and estimated useful lives of capital assets reported in the financial statements are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Land improvements	\$ 5,000	Straight-line	5 to 20 years
Buildings and improvements	5,000	Straight-line	10 to 20 years
Equipment	5,000	Straight-line	3 to 10 years

For depreciated assets, the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

4. Net Assets

Net assets of the Hospital are classified in four components.

Net assets invested in capital assets net of related debt consist of capital assets net of accumulated depreciation and reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets.

Restricted expendable net assets are noncapital net assets that must be used for a particular purpose, as specified by creditors, grantors, or contributors external to the hospital, including amounts deposited with trustees as required by revenue bond indentures, discussed in Note II G.

Restricted nonexpendable net assets equal the principal portion of permanent endowments.

Unrestricted net assets are remaining net assets that do not meet the definition of invested in capital assets net of related debt or restricted.

D. Restricted Resources

When the Hospital has both restricted and unrestricted resources available to finance a particular program, it is the Hospital's policy to use restricted resources before unrestricted resources.

E. Operating Revenues and Expenses

The Hospital's Statement of Revenues, Expenses and Changes in Net Assets distinguishes between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care services – the Hospital's principal activity. Nonexchange revenues, including grants, and contributions received for purposes other than capital asset acquisition, are reported as nonoperating revenues. Operating expenses are all expenses incurred to provide health care services, other than financing costs.

F. Compensated Absences

The Hospital's policy on paid days off (which includes vacation, sick leave, and holidays) allows full-time employees and regular part-time employees to accrue paid days off, to a maximum of 76 days.

Paid days off are accrued when incurred and reported as a liability.

II. Detailed Notes

A. Deposits and Investments

1. Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. Indiana Code 16-22-3-15 requires only that money in the hospital funds be deposited in the manner determined by the governing board. The Hospital has a formal policy regarding custodial credit risk for deposits. Deposits and investments are limited

SULLIVAN COUNTY COMMUNITY HOSPITAL
NOTES TO FINANCIAL STATEMENTS
(Continued)

to local financial institutions that are members of the Indiana Board of Depositories which allows unlimited insurance coverage for public deposits above the \$100,000 insured by the Federal Deposit Insurance Corporation (FDIC).

2. Investments

Authorization for investment activity is stated in Indiana Code 16-22-3-20. As of December 31, 2007, the Hospital had the following investments:

Investment Type	Primary Government	Investment Maturities (in Years)		
	Market Value	Less Than 1	1-2	More Than 2
Certificates of deposits	\$ 9,075,000	\$ 9,075,000	\$ -	\$ -

Investment Policies

Indiana Code 16-22-3-20 authorizes the Hospital to invest in: 1) any interest bearing account that is authorized to be set up and offered by a financial institution or brokerage firm registered and authorized to do business in Indiana; 2) repurchase or resale agreements involving the purchase and guaranteed resale of any interest bearing obligations issued or fully insured or guaranteed by the United States or any United States government agency in which type of agreement the amount of money must be fully collateralized by interest bearing obligations as determined by the current market value computed on the day the agreement is effective; 3) mutual funds offered by a financial institution or brokerage firm registered and authorized to do business in Indiana; 4) securities backed by the full faith and credit of the United States Treasury or fully insured or guaranteed by the United States or any United States government agency; or 5) pooled fund investments for participating hospitals offered, managed, and administered by a financial institution or brokerage firm registered or authorized to do business in Indiana.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Hospital has no formal policy regarding interest rate risk.

B. Accounts Receivable and Payable

Patient accounts receivable and accounts payable (including accrued expenses) reported as current assets and liabilities by the Hospital at year end consisted of these amounts:

J. Adjustments Included in Net Patient Service Revenue

Net patient service revenue includes an adjustment of \$766,602, which resulted from payments received pursuant to Indiana Medicaid Municipal Hospital Payment Adjustments, Medicaid DSH payments and prior year Medicare cost reports. This adjustment was originally reported by the Hospital as an extraordinary item.

III. Other Information

A. Risk Management

The Hospital is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; and natural disasters.

The risks of torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; and natural disasters are covered by commercial insurance from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance by major category of risk.

Medical Benefits to Employees

The Hospital has chosen to establish a risk financing fund for risks associated with medical benefits to employees, retirees and dependents. The risk financing fund is accounted for in the general ledger where expenses are accrued for claim settlements. An excess policy through commercial insurance covers individual claims in excess of \$35,000 per year. Settled claims resulting from this risk did not exceed commercial insurance coverage in the past three years.

Claim expenditures and liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported (IBNRs).

B. Contingent Liabilities

The Hospital is involved in litigation and regulatory investigations arising in the course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Hospital's future financial position or results from operations.

C. Postemployment Benefits

In addition to the pension benefits described in Note III-E, the Hospital provides postemployment health insurance benefits, as authorized by Indiana Code 5-10-8, to all employees who retire from the Hospital before attaining age 65 with at least 25 years of service. Currently, one retiree meets these eligibility requirements.

D. Fair Value of Financial Instruments

The following methods and assumptions were used by the Hospital in estimating the fair value of its financial instruments:

Cash and Cash Equivalents

The carrying amount reported in the statement of net assets for cash and cash equivalents approximates its fair value.

Investments

Fair values, which are the amounts reported in the statement of net assets, are based on quoted market prices, if available, or are estimated using quoted market prices for similar securities.

Accounts Payable and Accrued Expenses

The carrying amount reported in the statement of net assets for accounts payable and accrued expenses approximates its fair value.

Estimated Third-Party Payor Settlements

The carrying amount reported in the statement of net assets for estimated third-party payor settlements approximates its fair value.

E. Pension Plan

Defined Contribution Pension Plan

Plan Description

The Hospital has a defined contribution pension plan administered by Principal Financial Group as authorized by Indiana Code 16-22-3-11. The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The plan was established by written agreement between the Hospital Board of Trustees and the Plan Administrator. The Plan Administrator issues a publicly available financial report that includes financial statements and required supplementary information of the plan. That report may be obtained by contacting:

Principal Financial Group
Des Moines, IA 50392-0001
Ph. (800) 986-3343

Funding Policy and Annual Pension Cost

The contribution requirements of plan members are established by the written agreement between the Hospital Board of Trustees and the Plan Administrator. Plan members are not required to contribute. Plan members may contribute up to 15% of their annual covered salary, not to exceed \$15,500. The Hospital is required to match one-half of the employee contribution up to 2.5%. In addition, the Hospital is required to contribute 2% of the annual covered payroll. Actual employer and employee contributions to the plan were \$225,104 and \$381,243, respectively. At year end the Hospital had an accrued benefit payable to the plan of \$128,400.
